

GEN. GARFIELD is for the flag and internal improvement.

GARFIELD spells nation with the largest N to be found in the printer's cases.

BARNUM and Prince are retained, and with them the usual democratic bad luck.

THE reign of the blatherskite Kestney is ended. A more pestiferous vagabond never lived.

WHEN Garfield quit the army Vicksburg had been won, Gettysburg fought and Mission Ridge carried.

OUR contemporary has the faith that moves mountains, but the mountain this time will be too high.

THE people used to hoard gold and silver in the old stocking but now they keep the greenback.

REMEMBER the Garfield and Arthur club Friday night. Let another 85 names be added to the roll.

WE are grieved that the democrats will not take advantage of our disinterested offer to announce that ratification meeting.

STATE credit democrats may prepare to vote for Hawkins if they wish to cast their ballots for a state credit man on a state credit ticket.

IT is consoling to know that our contemporary regards Gen. Garfield's letter of acceptance "a ringing, candid, convincing paper."

"OUR paper currency is now as national as the flag, and resumption has not only made it everywhere equal to coin but has brought into our store of gold and silver."—Garfield.

"THE prosperity which is made possible in the south by its great advantages of soil and climate will never be realized until every voter can freely and safely support any leader he pleases."—Garfield.

THE CHRONICLE cannot too strongly express its joy that its contemporary views Gen. Garfield's letter of acceptance in the same light that it does, viz., that it is "a ringing, candid, convincing paper."

ATTORNEY-GENERAL DEVENS is positive that a fair election cannot be had in the south, under any circumstances, and will accordingly appoint no special deputies in this unfortunate section, with the exception, perhaps, of Virginia.

"It is certain that the wounds of the war can not be healed and the spirit of brotherhood can not fully pervade the whole country until every citizen, rich or poor, white or black, is secure in the enjoyment of every civil and political right guaranteed by the laws and constitution."—Garfield.

THE repudiationists in Middle and West Tennessee are preparing to overcome the state credit machine. Their tactics are to appoint delegates to the county conventions from civil districts and thus overcome the town crowds that are always for the state credit.

THE influence of the gifted Eulace may be discovered in the Madison county meeting. The Jackson Tribune and Sun is certainly solid on the debt question, and we doubt not, is one of the few democratic papers that will not support a repudiationist democratic candidate for governor.

CHATTAHOOGA is having an abundance of greenback material. Weaver, who, for general information, we will state is the greenback candidate for president, passed through there a few days since and left his mark behind in the Times' interviewer's note book, and De La Motte will make a speech there to-morrow. We tender the heartfelt condolences of Knoxville to our sister city's great affliction. This plague is worse than the yellow fever.

Squatters in Indian Territory.

[Special to the Cincinnati Commercial.] WASHINGTON, July 12.—The most diligent inquiry at the war department to-day resulted only in the information that they had received no news of the reported invasion of the Indian territory by white squatters from Kansas or Texas, newspaper dispatches not being credited as decisive. At the interior department, however, there was no such ignorance feigned. Secretary Schurz had a consultation with the president, and it was agreed that the same line of policy as heretofore must be pursued. The president agreed to send troops there, as the Indians must be protected in their rights. At the secretary's office it was said that the most summary means would be used. The statute provides that any one trespassing upon the Indian reservations shall be merely evicted upon the first offense, but upon a repetition of the misdemeanor shall be fined not less than one thousand dollars. Secretary Schurz thinks that the party that has gone on to the Indian lands is not so large as reported, but enough have gone to test the matter as to whether the government can enforce the law. They will find it can. They will be arrested and tried. These parties have committed the same offense before. They went on to the Indian Territory last summer. Then they were put off merely. Now they will be put in prison if convicted. The law is considered at fault, too, by the department. The lands ought to be given to the Indians in severalty, then each could take his farm, and the rest be sold to any other settler who wished to buy. Most of the Indians in the Territory are civilized. They have their courts, and protect themselves.

## POLITICAL.

New York, July 14.

The democratic national committee before their adjournment added the name of B. F. Jonas, of Louisiana, to the executive committee, which now numbers eighteen members. The matter of the two democratic electoral tickets in Virginia came up, and after a brief discussion, was referred to the executive committee.

In the democratic executive committee Joseph L. Hance, of Albany, was chosen second assistant secretary to the committee and Edward B. Dickinson stenographer. Messrs. Hewitt, Smalley and Barnum were appointed as a committee to secure permanent headquarters, and Messrs. Hewitt, Channell, Scott, Smalley and Horsey as an advisory committee.

A sub-committee, consisting of Messrs. Barnum, Hewitt and Scott were appointed to confer with the sub-committee from the democratic congressional campaign committee in regard to the management of the campaign. The latter sub-committee consists of Senator White, of Maryland; McDonald, of Indiana; Wallace, of Pennsylvania; Hunter, of Virginia; Augustus Schell, of New York, and Duncan S. Walker, of Washington. It was decided that the executive committee should meet on the second Tuesday in each month, and the matter of establishing a branch in the west was discussed, but no action taken on it. The committee then adjourned to meet again on Wednesday morning next, at 10 o'clock, in the Fifth avenue hotel.

This afternoon Gen. Hancock visited Mr. English at the Fifth Avenue hotel, and, after a short conference, left the building with him. The general, on entering the hotel, was warmly greeted by members of the national committee and other democratic politicians.

The democratic national executive committee met shortly after one o'clock this afternoon. William H. Barnum was elected chairman, F. O. Prince secretary, and Gen. Duncan S. Walker, of Washington, assistant secretary. The members of the democratic congressional campaign committee were waited on then and made a long statement as to their views of how the campaign should be carried on and the party they intended to take in it. The committee is still in session.

NATCHEZ, Miss., July 14.—The sixth congressional democratic convention to-day renominated J. R. Chalmers by acclamation.

## THE WEST.

A special to the Tribune from Pueblo, dated Monday, says: There is a worse flood in the fountain to-day than was since 1863. Torrents of water came down with a rush, carrying everything before it. Thirty persons camping in the river bottom all escaped but one. The railroad twenty miles from this place is washed out. The river rose eight feet in less than an hour, and the emigrants camped along its bottom lost nearly everything. The flood was caused by a cloud bursting.

## THE CANVASS IN NEW YORK

New York, July 14.—At a meeting of the republican executive committee, at the Fifth Avenue hotel, this afternoon, on motion of Gen. Arthur, Thos. C. Platt was chosen permanent chairman. The temporary headquarters are ordered to be opened at the Fifth Avenue hotel. Henry A. Gladden was chosen secretary.

## SLAIN BY SPANIARDS.

New York, July 14.—An evening paper says news has been received in this city by the Cuban revolutionary committee of the killing by Spaniards of Cuban prisoners, whose names will be found below: Minister of war Pedro Piassado Natalia Argentin, Dr. Enrique Verona Torres, Raymond Gutierrez, Felix Marjón Domingo Massa, Lieut. Manuel Pathez Eche Verria, also several others.

They were all sick when captured in a small residence, and were under charge of Dr. Tones. Their retreat was four miles from Manilla.

## A BARGE CRUSHED.

St. Louis, July 14.—Barge No. 520, towing for the Mississippi valley transportation company, laden with 35,000 bushels of corn, while being towed down the river this morning, struck one of the piers of the bridge about midships, broke in two and sank. The barge was valued at \$9,000, not insured. The corn was insured for \$13,000.

## ARKANSAS

Two Murderers Taken from the Officers and Killed.

MEMPHIS, July 14.—About two months ago Rufus Armstead was assassinated near Horn Lake, Miss., by Nelms, colored, because Armstead's brother, when deputy sheriff of DeSoto county, Miss., a year ago, killed Nelms' brother, who charged with horse stealing. The assassination created much indignation. Nelms, the murderer, was pursued to the Tunica county bottoms and was, together with his brother, Prentiss Nelms, and Tom Kanky, as accomplices, arrested.

Ed. Nelms' assassin was conveyed to jail at Hernandez, and Prentiss Nelms and Tom Kanky were lodged in Tunica county jail Saturday morning. While the two latter prisoners were being conveyed to Hernandez, a body of masked men stopped the officers having the prisoners in charge. They took possession of them, and the officers returned to Austin for assistance on returning they found the two prisoners dead with their throats cut from ear to ear and their bowels protruding from the numberless wounds inflicted with knives and a rope around each of their necks. An indignation meeting was held at Austin on Monday at which resolutions condemning the act were passed and committees were also appointed composed of whites and blacks to ferret out the murderers.

Only 2 1-5 cents a day.

## THE CROPS.

SAN FRANCISCO, CAL., July 15.—The crop reports indicate the wheat yield to be very heavy.

CHICAGO, ILLS., July 15.—The latest returns from the agricultural districts tributary to this market, although conflicting, seem to establish pretty clearly that in the whole northwest the winter wheat crop is saved in good order and with about an average yield; and the spring wheat crop, as a rule, has less to the acre than last year, but the increase of acreage will make the yield somewhat greater than that of 1879, provided the weather becomes a little more favorable.

WASHINGTON, July 15.—The following statement of the condition of the corn and wheat crops was issued by the department of agriculture to-day:

CORN.—The increase in the area planted in corn is one per cent. over that planted last year. The average condition of the crop for the whole country is the highest for many years, and is 100, being seven per cent. more than last year at the same time. There are some complaints of drought in the south Atlantic states, while in the valley of Mississippi and those states north of the Ohio river there is complaint of too much rain. The Pacific states report a very high condition.

WHEAT.—The general average of winter wheat for July 1st, 1880, was 95, against 91 for July 1st, 1879. It improved slightly during June. The whole south falls off nearly a fourth, but the heavy winter wheat region north of the Ohio river rules high at 98. The middle states are 3 per cent. above the average and the Pacific 4 per cent. West of the Mississippi the crop averages 84 against 89 last year. Spring wheat averages 91, same as in July, 1879. This shows a great decline in July, when the average was 97. The New England states average 99, middle states 93, north of the Ohio 96; west of the Mississippi the general average is 90, Minnesota being 101, while Nebraska falls to 62; Iowa stands at 91; on the Pacific coast California reports 96.

LONDON, July 15.—The heavy rains have caused great damage to the hay and other crops in the midlands of Warwickshire and Leicestershire and in other parts of the provinces.

A Dublin dispatch says excessive rains have prevailed nearly over all Ireland during the past fortnight and are beginning to excite serious apprehensions in regard to the harvest.

## POLITICAL.

CONCORD, N. H., July 15.—The republican state committee met last night. Henry H. Hense, of Manchester, was elected chairman, Geo. E. Jencks, of Concord, secretary, and Senator Rollins chairman executive committee. The committee decided to hold the state convention at Concord September 7th.

SEDALIA, Mo., July 15.—The greenback state convention yesterday nominated a full state ticket, headed by Laman A. Brown for governor.

## KEARNEY PLAYED OUT.

California Republican by a Large Majority.

Special to the Cincinnati Commercial.

SAN FRANCISCO, July 12.—Kearney, in staying away from the San-let meeting yesterday, exhibited what some would call a virtuous discretion, but what everybody here calls the weakest sort of cowardice, and cowardice is the one element in character which is utterly despicable to every Californian of whatever creed or profession.

Kearney's lame excuse that having lost his brother, it would not be delicate for him to appear in public so soon after, deceives no one, and least of all the workingmen, who believe they have been betrayed; that their votes have been traded; and their interests utterly disregarded by this same blackguard drayman whose aims are so low, and whose actions are as devoid of principle as the imaginary vile men against whom he launches his foul diatribes. Had he appeared yesterday at the meeting of the sand-lotters, it is more than probable that he would have been roughly handled by his quondam friends, the workingmen, and it is not at all unlikely that he would have been murdered by the infuriated masses of that party, which he has been accustomed to lead hither and yon at his will. They understand very fully now that they have been duped, and it is among the possibilities that they will abandon their so-called "party" organization, before the campaign is fully under way, and will fall into the ranks as republicans or democrats, according to their previous predilections or their later inclinations. Many of them, yes, multitudes, will do this any way. Of course, the republican party would gain immense strength by such a desertion, for by far the greater number of the workingmen who went into their movements for the bona fide purpose of elevating their class, and of getting on a more equitable footing with the millionaires, went from the republican party. They have found that they were deluded by one of the most blatant of demagogues; that their hopes were illusory, and that the republican party has done and is doing as for them that any party can accomplish, while the democracy fall of hollow promises as ever, have left them to their own resources, giving them nothing except promises, without a single notable act which has their interest in view.

If there ever had been a question as to what California would do at the coming election, no such question now exists. California, in common with the whole Pacific coast, will roll up a sweeping republican majority in November. Upon that sister republican state and faithful republican states of the east may securely build, and draw comfort and strength from the assurance.

If you want the latest and most reliable news subscribe for the DAILY CHRONICLE.

## ANOTHER STARVATION CASE.

A Young Pennsylvania Thirtynine Days Without Food.

[Special to the Cincinnati Commercial.] PITTSBURGH, Pa., July 12.—The starve-as-you-please race of Dr. Tanner against time has called up a reminiscence from Washington county, in this state, which is well authenticated.

In 1840, Washington county in 1840 a young man named Thos. Ford, aged twenty-three years, lived without food or water for thirty-nine days. Ford was taken ill and was unable to swallow either solids or liquids, all the physicians in the country were unable to watch with him much longer. The young man continued in the same condition for thirty-nine days, suffering all the pangs of hunger and thirst. On the evening of the thirty-ninth day he took his sister's hand in his and remarked that she would not have to watch with him much longer. When she inquired whether he felt worse, he answered that he felt no worse than he had for several days past, but that no man had ever fasted forty days but one Saviour, and no man ever would. He died that evening, leaving a request that there be a post-mortem held for the benefit of science, as he did not want others to suffer as he had done. The examination was made, and the physicians found the entrance to the stomach closed up completely by a fungus growth, and that it would have been impossible to relieve him by an operation.

## DR. TANNER.

NEW YORK, July 15.—Entering on the eighteenth day of his fast, Dr. Tanner exhibits a marked improvement in his physical condition. From 9 o'clock last night until noon to-day he has swallowed between thirty and forty ounces of water. His weight this morning was 137½ pounds. Allowing one pound for the weight of his coat, he has gained four pounds since the figure was taken Wednesday. He took a drive to Central park this morning. He forced the dynamometer up to 151 against 80 yesterday. His pulse when last taken was 80, temperature 98 2-5, respiration 16.

## FRENCH ANNIVERSARY.

SAN FRANCISCO, July 15.—The anniversary of the battle was celebrated by the French residents yesterday.

ST. LOUIS, July 15.—The French citizens held a grand fete yesterday. Several thousand persons attended, including the foreign consuls. The Marseillaise was sung by a chorus of five hundred voices. There was a display of fireworks, and a banquet given last night.

NEW YORK, July 15.—Seventy-three French societies celebrated the national fete yesterday.

## EXPLOSION.

One Hundred and Twenty-Eight Men Killed.

LONDON, July 15.—An explosion occurred at twenty minutes past one o'clock this morning in the London and South Wales colliery company, in the new black vein pit at Risca, six miles from Newport. The shock was violent, and it is supposed that 119 men were in the pit at the time, and there is scarcely a probability that any will be saved. One body has been found at the bottom of the shaft. Ventilation is being restored in the mine with a view to exploring for bodies. A dispatch from Cardiff says that one hundred and twenty-eight men were in the pit of the London and South Wales colliery company's mine at the time of the explosion, and it is believed all have perished.

## MEXICO.

GALVESTON, TEXAS, July 15.—A News special from San Antonio says advices have been received of a difficulty between the military and police at Monterey. One officer and two policemen have been reported killed.

## Toothache.

Do you suffer with it? Go buy a bottle of PERRY DAVIS' PAIN-KILLER and find relief in the twinkling of an eye—for Toothache it is a specific.

## MARKETS BY TELEGRAPH.

New York Money Market.

NEW YORK, July 14.—Money, \$1.02 a 100. Exchange, \$4.83. Government, strong; 5's, \$1.03; 4's, \$1.10; 4's, \$1.04; States, dull.

Preparation of IRON and CALISAYA BARK, in combination with the Phosphates.

Endorsed by the Medical Profession, and recommended by them for Dyspepsia, General Debility, Female Diseases, Want of Vitality, &amp;c.

W. F. HILL, Crockett Station, Tenn., writes: "Dr. H. B. HARTER'S IRON TONIC has done wonders here. A lady who had been doctoring nearly to death for several years, has been cured of Dyspepsia and Great Prostration by the use of Dr. HARTER'S IRON TONIC, which raised her from her bed, and enabled her to resume her usual avocations, and has been lying for many months."

Dr. HARTER'S IRON TONIC is a most valuable medicine, and is recommended by the Medical Profession, and is sold by all the leading Druggists and Chemists.
